**Peat Moss Fires**

**Candles and Kids**

Never leave a child alone in a room with a burning candle. Keep matches and lighters up high and out of children’s reach, in a locked cabinet.

**IF YOU DO BURN CANDLES, make sure that you...**

- Use candle holders that are sturdy, and won’t tip over easily.
- Put candle holders on a sturdy, uncluttered surface.
- Light candles carefully. Keep your hair and any loose clothing away from the flame.
- Don’t burn a candle all the way down — put it out before it gets too close to the holder or container.
- Never use a candle if oxygen is used in the home.
- Have flashlights and battery-powered lighting ready to use during a power outage. Never use candles.

**FCTS**

- ! **December** is the peak month for home candle fires.
- ! More than **one-third** of home candle fires started in the bedroom.
- ! **Three of every five** candle fires start when things that can burn are too close to the candle.
